

Teaching Assistants

Effective Use of Teaching Assistants in the Classroom Programme - Mathematics

This is a **3-session programme** that will help TAs to support children within a mastery context. Using effective assessment and feedback strategies will be explored throughout the three days.

The programme has been designed based on the key findings from the EEF TA report linked to pedagogy (how and why children learn) and enhancing subject knowledge.

Day 1: Using modelling and manipulatives to support all learners.

Day 2: Using questioning to support and extend different groups of learners

Day 3: Reasoning and problem solving is for all learners

All materials used at the training will be sent to delegates

It is advised that TAs attend all 3 sessions to benefit fully (however individual sessions can be booked if appropriate). They are encouraged to disseminate training ideas when returning to school.

TAs and other adults supporting mathematical learning	Thursday 17 th October 2019, 9 - 3pm St Helens TSA POD St Mary and St Thomas' CE Primary, Barton Close, St Helens, WA10 2HS	All TAs - all year groups £100 per session
